

Excellence in Pupil Development Award

At Stowlawn Primary School, we are committed to the personal development of all of our children. We strive to equip our pupils with the personal skills that will prepare them for their future lives in an increasingly complex world. Actively developing pupils' life skills so that they can be critical thinkers, creative, tolerant and empathetic people are necessary characteristics for citizens of our modern society.

We are currently working towards the accreditation of the Excellence in Pupil Development Award. Through this award, we will offer pupils the opportunity to develop positive behaviours including:

- Self-confidence and self-esteem
- Self-discipline, responsibility and resilience
- Pride in learning
- Goal-setting and ambition

Through gaining this award, alongside our everyday practise, we will support our children in becoming responsible citizens, embed the skills and knowledge for personal development into the curriculum, continue to set high behaviour expectations and make local partnerships and links with external organisations.
