

# THINGS TO DO AT HOME

Week 8 Commencing 11/5/20

Our story this week is 'Monkey's Magic Pipe.' Miss Dudfield has recorded the story for you to listen to. This has been uploaded onto the school website, on your child's class teacher page.

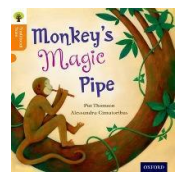

**Reading-** Listen to the story and talk about the following questions with an adult.

What do you think the monster looks like? How do you think the animals felt when they were captured? Where do you think the animals went when they escaped from the monsters' bag?

**Writing-** What do you think might happen after the end of the story? Did the monkey play any cleverer tricks?

Write a sentence about what you think could happen next or draw a picture and label it.

**Maths-** Draw three different sized snakes on a piece of paper. Colour them in and cut them out. Can you put them in order from shortest to longest? Now longest to shortest.

**Understanding the world-** Look at the two different environments. Which animals do you think would live in each environment? What things are the same/different?

**Expressive Arts and Design-** Go onto Purple Mash and complete the task '2do: Monkey.'

**Physical Development-** Pretend to be different animals that are found in the jungle! How do they move?

For example walk on your tiptoes so you are as tall as a giraffe, eating leaves from the tallest trees!
