

THINGS TO DO AT HOME

Week Commencing 13.7.20

This week we are looking at minibeasts!

Reading- Write different letters on pieces of paper. Can you put them together to create a word? E.g. c-a-t, s-t-o-p.

Writing- Can you draw your own imaginary minibeast? Colour and label it. My minibeast would be purple and blue, have 10 legs, 4 eyes and 6 wings!

Maths- On your bug hunt, write down how many of each minibeast you found. Which minibeast did you find the most of? Which minibeast did you find the least of?

Understanding the world- Watch this video about minibeasts:

https://www.youtube.com/watch?v=JuHg5oVFE_mo. Talk to someone about your favourite minibeast and why.

Expressive Arts and Design- Using Purplemash, go onto the '2draw' app and draw a beautiful butterfly

Physical Development- Go on a bug hunt around the garden or a local nature reserve. What minibeasts can you see? Take a picture of them.
