

Year 6 Suggested Home Learning Tasks

Week 15

Week beginning
6.7.2020

We hope you are keeping safe and well and good luck to those visiting their secondary schools this week!

The deadline for the leavers' photograph to be sent into school is **Monday 13th July**. If we have not got your photograph by then, you **WILL NOT** be on the presentation! The ones we have had are brilliant, thank you! Remember to use the letter sent out for the instructions. (We want you to just take a photograph of yourself holding a message to your fellow class mates. For example Good Luck. (Like the one of me) You could show a positive, favourite memory instead of a message!)

Maths	<p>We have access to My Maths and your task is to log onto it and explore. Try the teaching slides and remind yourself of some of the basic maths skills. You will need the school Log in details, which are</p> <p>School log in : stowlawn Password: cosine246</p> <p>Then, your own log in, which was sent out. If you have any problems, you can email me via Purple Mash.</p> <p>I have also set you tasks on –</p> <p>Converting measures Addition and subtraction Division and rounding remainders.</p>
Reading	<p>Over the next 3 weeks, most of you will be spending some time at your new secondary schools. The local authority and <i>most</i> of the secondary schools have developed a variety transition activities based on the book Wonder by R.J.Palacio. Most secondary schools will continue work on the book (after page 117) when you start Year 7. Even if your secondary schools are not using the book, they would be good activities for you to complete as a guide to what to expect in September.</p> <p>You do not need to buy the book as the activities have been designed so that you can complete them without it. The book was also made into a film but ask parents/carers first as it is a PG.</p> <p>We have put the transition booklet on the website and I have attached it to an email via Purple Mash.</p> <p>This week, complete the activities in the transition book from page 11 to page 16. If you find you need the book to complete the activity, then miss the task out. You could always complete it in September.</p> <p>Think about how you feel about starting secondary school. Think about Auggie's meetings with his new friends.</p>
Writing	
Topic	<p>This week we would like you to think about e safety. Think about which apps or groups you are in. How and what information do you share? Are your privacy settings up to date? Check that you are safe on line and remember not to give your (or anyone else's) number out to someone you have just met.</p>

Science

BODY SCIENCE

1 TRY THIS INDOORS True or False?

Use a tape measure (or string and a ruler) to find out if these statements are body facts or body fictions:

1. The circumference of your head (picture 1) is 3 times the length of your foot.
2. Your arm span (picture 2) is the same as your height.
3. Your height is 10 times the length of your hand (from your longest finger to your wrist).
4. Your height is 5 times the length of your thigh.

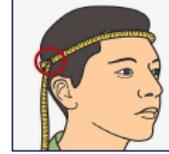

WHAT DO YOU NOTICE?

Things to talk about ...

Can you find any body facts of your own? Are the body facts the same for adults and children? Who has the widest arm span in your family? Who has the widest hand span? Is the oldest person in your family the tallest?

You will need

- * Tape measure
- * Chalks (or felt pens and a piece of paper as big as you!)

1. head circumference

2. arm span

Log onto Purple Mash and complete any activities set by your teachers.

<https://www.purplemash.com/sch/stowlawn>

Activity 1 – Read, research and complete the activity 'What happens when we exercise'.

Activity 2 – Complete the exercise poster persuading someone to take more exercise.

Log onto TTRS and improve your multiplication skills.

<https://www.trockstars.com>

If you want to find safe online information suitable for children, you could try using Kiddle. Kiddle prioritises content that is child friendly and filters out most content aimed at adults and teens.

Remember to keep safe online.

If you see something that makes you feel worried or upset, tell your parents or carers.
