

Year 4 Suggested Home Learning Tasks

Week beginning 13.7.2020

Well, we have made it! The last week of being in year 4. What a weird year it has been. You have all been lovely to work with, wonderful to watch grow and it has been a pleasure to be your teachers. You have worked extremely hard to achieve targets this year and despite the current situation resulting in you having a long time off school, we hope that you come back determined to achieve and ready to learn.

We are so very proud of everything you have had to do and overcome over the last 16 weeks. We really appreciate the hard work that you have completed and that you have kept in touch with us through this hard time. Take care, relax, enjoy the summer as much as possible and most importantly, stay safe. We will see you in September hopefully.

Love from Miss Mason & Miss Kandola.

Maths	Practise times tables on: TTrackstars, Hit the button, multiplication bingo, Tommy's trek. Log on to MyMaths and watch the lesson on identifying different types of angles and then complete the task set. Log on to Purple Mash and play the game ordering angles. On BBC Bitesize, follow the lesson focusing on identifying acute, obtuse and right angles by clicking on the link (https://www.bbc.co.uk/bitesize/articles/zg4xdp3).
Reading	<p><u>Reading Activities to choose from:</u></p> <p>Choose a book from your home and share it with a family member.</p> <p>Read a story of your choice - draw your favourite character and write a description about them.</p> <p>Create a poster for your favourite story - It could be one that we have read together in class this year. It must advertise the story for others to read.</p> <p>Retell me your favourite fairytale story using a comic book theme. You can use boxes to draw out your story and use words like 'BAM' and 'POW'.</p> <p>There will also be the first couple of chapters of a new story sent on Purple Mash. These chapters will have no End date incase you needed more time to complete them.</p>
Writing	Can you take a picture of something that will be a memory of the last few months. You could take as many as you like and arrange them as a collage. Then write / type a few sentences about it, explaining what is in the photo, what was happening in the world at the time? How you felt through it all. You can send these to the school via Purple Mash to your teachers/twitter. I will be making one too - then we can add them to the school website as a reminded of how incredible you are.
Topic	<u>Computing</u> - Dustin has received an email from another pupil of a picture of him with silly changes made to it. Dustin doesn't know what to do about it, but it has really upset him. Write back to him and tell him what you think he should do.

	<p><u>Science</u> - login to purple mash and complete the task called 'My Robot'. I would like you to design your our robot and write down the features you have given your creation.</p>
	<p><u>History</u> Login to Purple Mash and complete the task called 'Viking Gods'. I would like you to read the information and then write about the different Gods and Goddesses the Vikings believed in and what they represented.</p>
	<p><u>Art:</u> Create a page of cartoons/ photos if you have them to make a collage of your year so far. This has been a very difficult time for everyone but I am sure that you have had good times through it all. Look back at photos of you and your family together, your home learning, sports challenges, chore tasks or any memory you have made over this time. Draw it, capture it, and remember it. 😊</p>
	<p>Log into Purple Mash and complete any activities set by your teachers.</p>
